- Saturday, April 24, 2010 (8:00a.m. – 11:15am):** What To Do After eDiscovery

**Presenter:** Jacques Nack Ngue has almost a decade of experience in complex network infrastructure, database design and software development. He has served as project manager on multi-national cases for both AmLaw 200 law firms and Fortune 500 companies. As partner and lead eDiscovery specialist for eClariss, a premier eDiscovery consulting firm, Jacques Nack Ngue developed and wrote CaseSafe, a document repository software for complex litigation. In addition and more recently, he helped launch a revolutionary eDiscovery portal, <http://www.eclariss.com>, which allows clients to initiate, manage and track their eDiscovery efforts at all hours of the day from any Internet connection via a web browser. Jacques is fluent in six languages, including French and German, and is a member of the Information System Audit and Control Association.

- Session 1:** An introduction to eDiscovery, including early considerations, project management, identifying custodians, locating where ESI is located, preserving information to be produced, ethical considerations and more.
- Session 2:** Computer forensics and processing data collections; preservation and chain of custody concerns, and other behind-the-scenes information on how to process, review and produce ESI, including working with load files. There will also be a discussion on drafting effective eDiscovery documentation, i.e., protective orders, objections and joint defense agreements.
- Session 3:** Creating and maintaining discovery logs; presenting exhibits, transcripts and expert reports at trial; risk and ethical issues; sanctions and spoliation; working with colleagues & consultants; planning & budgeting.
