

The legal process may be complex but the court reporting part doesn't have to be.

When you are busy working on a case, the last thing you should have to worry about is court reporting.

We are far more than just a pool of court reporters. Our unique series of services and tools streamline deposition and associated litigation processes to let you concentrate on what you do best.

As one of the nation's largest deposition services and with over 50 years' experience, we know what can make your job easier and more efficient.

For example, if it's realtime you need, we will make sure your laptop is up and running for your deposition. If you don't have a laptop, we will provide one, including on-site, technical support in the city of your choice, in town or out of town.

And we will give you this same service whether your case calls for one deposition or thousands.

Transcripts and technology

Our Veritext Multi-Media Transcript Pak® is one of the most user-friendly court reporting tools ever developed.

The Pak contains: 1) hard and digital copies of transcripts, including compressed versions, and exhibits, 2) all exhibits linked, if desired, and 3) all video delivered on DVD with synchronized deposition testimony and video.

Another technology tool to simplify your life: our VIP21 program. It brings your entire case to your computer or PDA. Access any element any time—transcripts, exhibits, schedules—even video. You can search, print and download from VIP21. Just visit the Veritext website, log onto your password-protected account, and VIP21 is at your disposal, as well as any members of your team.

Using a combination of experience, technology and a sincere dedication to service, Veritext is making life easier for legal professionals across the nation.

Let us prove it to you.

At Veritext, we've got you covered...wherever you are.

Client service comes first

Every law firm we work with has a dedicated Client Service Team. The team members know your cases and your preferences. They can respond quickly to your requests and tailor our services to your special needs.
